## Climate Action for the Social Economy

Adapting your social business for a low carbon economy

A free 3-day learning programme for social entrepreneurs and purpose-led businesses

“The course has encouraged me to constantly question and look for a deeper understanding of how my project can have a positive impact.”

- Respond effectively to the climate emergency
- Develop a social business fit-for-purpose in a low carbon economy
- Build personal and professional resilience skills and knowledge
- Future-proof your business for climate action

Peer to peer learning

Build your networks

Improve resilience

## What will I learn?

- An introduction to the climate emergency and what businesses need to be aware of
- Look at ways to reduce your business carbon footprint
- Build personal and business resilience
- Effectively communicate your brand purpose and engage customers
- Hear from other social businesses who are doing it - for both product and service businesses
- Create and embed sustainability strategy and policy
- Find out how to be part of Bristol's low carbon ambition and structure

## Who is the programme for?

Calling all social entrepreneurs, business owners, project managers, HR managers, sustainability leads and green champions.

If your business is a social enterprise, a community business, purpose-led business, environmental business or charity, then we want to hear from you.

## Who will be contributing?

Bristol Green Capital Partnership  
Brand New Story  
Happy City  
Planet Mark Start  
University of Bath  
....plus many more!

## How to apply.

**Cost of programme:** Places are fully funded by Bristol City Council and The Social Enterprise Innovation Programme (SEIP). Places are limited.
